

MOUNIR EL-ABBAS

Web Developer

PROFESSIONAL SUMMARY

Over one year of web development experience, primarily focused on front-end with React. I am a teachable and reliable candidate, seeking a position responsible for working from mock-ups, ensuring cross-browser compatibility and mobile responsive results.

EXPERIENCE

me-run-tracker.herokuapp.com/ - Run Tracker

- Back-end: Node.js, Express and MongoDB
- Front-end: React, Context API, Axios, and styled components
- Log your jogs and get many metrics calculated to track your progress.

pseudo-travel-app.netlify.app/ - City Browser

- React, Redux and SCSS
- Used many publicly available APIs such as: Ticketmaster, Google Maps, and Weather.
- Browse countries and their cities for events, weather, and pictures!

SKILLS

- React
- Node
- Express
- MongoDB
- Styled Components
- SASS
- Git
- Context API & Redux
